Amazing 3D sensation takes you into unexpected battle

SENJYO™

HOW TO PLAY SENJYO

- ☆ Destroy "Space Tanks" approaching you by firing the twin laser guns. When 32 tanks have been destroyed, the present battle is over and the first round is cleared.
- ☆ By full use of radar, locate "Space Tanks" and destroy them.
- ☆ When 4 "Space Tanks" have been destroyed, one of the various types of "Spotter" will appear. Shoot it down, and your score will multiply by either X2, X3, X4, or X5, depending upon the type of "Spotter".
- ☆ "Space Tank" that has come nearest to you is very dangerous, so destroy it as quickly as possible.
- ☆ In the course of time, "Raider" (enemy's missile) will appear and rush towards your position.
- ☆ From the second round on, "Eliminator" will appear when a certain number of shells are fired. When shooting it down, all "Space Tanks" on the screen are destroyed.

INTERCEPT IN ALL DIRECTIONS!!
